MOBILE AUDIO

PNW-1 HIGH-FIDELITY TWEETER

Take your audio experience to the next level with the PNW-1 high-fidelity tweeters from AudioControl! The PNW-1 features a hybrid silk dome tweeter, silk dome diaphragm and aluminum housing so you can experience accurate sound reproduction without distortion.

The detachable housing and versatile mounting accessories simplify installation, accommodating various applications seamlessly. The included in-line high-pass filters ensure only the desired frequencies reach the tweeter to maximize your sound and minimize distortion.

Pair PNW-1 tweeters with any of the AudioControl PNW speaker line-up for a truly immersive audio experience!

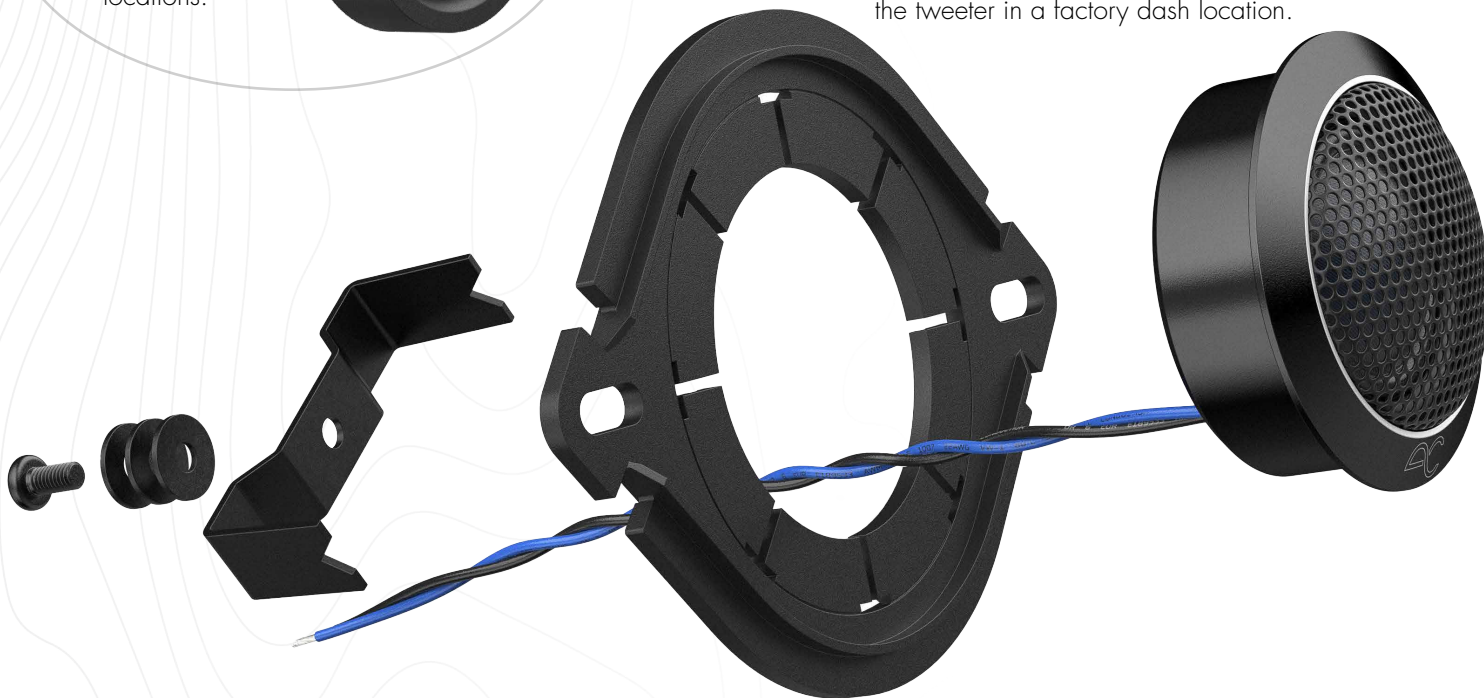

- High-Fidelity Silk Dome Diaphragm
- Precision Machined Aluminum Housing
- Embedded Sonic Damping Pad
- Neodymium Magnet
- Detachable Assembly for OE Applications
- Rear Dampened Hybrid Silk Dome Tweeter for Extended Frequency Response
- In-Line High-Pass Filters
- Multiple Mounting Accessories Included

MODEL	Size	Nominal Impedance	Resonance Frequency	Sensitivity SPL	Crossover Frequency	Nominal Power	Frequency Response	Mounting Depth
PNW-1	1"	3 ohm	1.621 kHz	92dB	3.5 kHz HP	75-100-125	1K-20 kHz	16 mm

The detachable housing assembly allows PNW-1 to fit into most modern OEM locations.

Multiple mounting accessories are provided, including the bracket to mount the tweeter in a factory dash location.
