## SPACE SERIES LOADED SEALED ENCLOSURES

Get ready to upgrade your car audio with our premium loaded subwoofer enclosures! Introducing our sleek and powerful wedge-shaped enclosures, loaded with an AudioControl Space Series shallow mount subwoofer. Crafted with precision from high density wood fiber board, these enclosures are built to last and deliver superior sound quality.

To ensure maximum durability and resonance control, our enclosures are coated with Roadkill Armor and wrapped in marine-grade vinyl. You can trust that they'll withstand any weather conditions and protect your components against moisture damage.

Inside the enclosure, we've added internal support to enhance the performance and longevity of your subwoofer. The dual front mounting baffle design ensures optimal speaker placement for an immersive and powerful audio experience. And with precision-filled poly-fiber material, you'll enjoy controlled sound dispersion and tight, accurate bass response.

Not only do these enclosures come with a sturdy, powder coated steel grille for added protection, but they also include a versatile multi-secure mounting system. Say goodbye to installation hassles with our quick disconnect harness and connector that offer an easy and alternative connection option.

Looking for the perfect match? Pair these high-quality enclosures with an AudioControl amplifier and take your audio system to the next level. Don't wait, get yours today and let your music hit full blast! Available in 10" and 12" sizes.
